

Aspen Medical Practice

Position for Salaried Doctor/ GP Partner

4-8 sessions available

Aspen Medical Practice are looking to expand our team, with a new friendly, motivated and enthusiastic GP who values patient care and works well within the practice as a Salaried Doctor/GP Partner.

About us:

Aspen Medical Practice is a Primary Care Network and individual practice with 30,000 patients, a new main purpose built building, and twelve partners.

We are a forward thinking and dynamic practice with a young Partnership who are not afraid to innovate and try new ventures. Our goal is to take the stress out of General Practice and bring back the enjoyment and satisfaction of Primary Care.

We are a friendly team who meet regularly for work and social events and have monthly protected learning time within the practice including an "Eat Real Food" lunch.

As a member of our team you will:

- Be working with friendly and supportive colleagues who look out for each other with excellent back up from our non-clinical teams.
- Be supported by a practice prioritising staff and patient safety during Covid-19 Pandemic, responsive to the changing threat levels and guidance. We have ensured high quality PPE and maximised remote consultations by video, e-consult and AccuRx SMS.
- Work in a CQC rated 'good' Practice
- Have mentoring support available
- Have 7 weeks of annual leave pro rata to include a week of study leave
- Receive a competitive sessional rate
- Have indemnity and GMC fees paid
- Use the EMIS clinical system, Docman, AccuRx and econsult
- Be part of a training practice and we are happy to develop doctors who wish to expand into becoming Clinical and Educational Supervisors
- Have no home visits unless they are your palliative patient or you are the visiting doctor for the day

- Be working with the Hot (duty team) led by a partner each day, either as visiting doctor, extended hours clinic or helping with on the day queries only. You will never be “the sole Duty Doctor” seen in traditional practices.
- Have minimal Docman due to workflow optimisation and paperless systems.
- Have low levels of prescriptions due to team of Clinical Pharmacists and prescription clerks.
- Have continuity of care for palliative patients with a named doctor system.
- Be able to refer to in-house specialists for dermatology, minor surgery, diabetes, women’s health and joint injections – and able to develop these skills yourself if you wish
- Be able to signpost carers to our monthly Carers Support Group (currently by Zoom)
- Benefit from:

in-house Results Nurses, resulting in no chronic disease bloods to manage

in-house Reports Team with minimal clinical input

Advanced Nurse Practitioners and Physicians Associates seeing minor illnesses

our Frailty Matron and team of social prescriber and Community Practitioner

a robust recall systems and Significant Event Analysis

having named GP’s covering their own Nursing Homes

our Eat Real Food programme which helps patients to improve their diabetes and pre diabetes often into remission though food and wellbeing

an active and supportive Patient Participation Group

- Work in modern and well designed and updated premises across three sites.
- Meet regularly for coffee and lunch.
- Have the option to explore partnership in the future when and if you are ready.
