NAPC – How we can help

LMC Study Day 09 April

Robert Bowen, NAPC Faculty Member

Only 4 things to do....

Forge a coalition of
the willing

Build relationships
and trust

Inspire the team
and fan the flames

Challenge and help
to change fixed
mindsets

NAPC offer – tailored support

The NAPC is working with a number of STP and ICS areas to facilitate the local development of the network model:

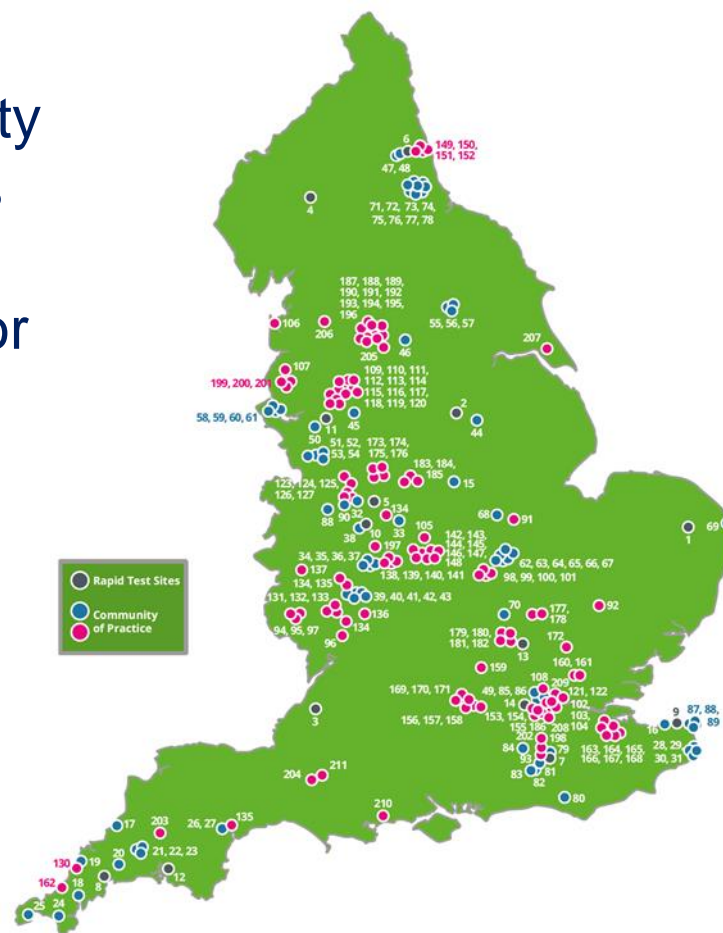

- Tailored support to accelerate progress - Independent
- Strategic advice on how to transform and prioritise
- Practical 'how- to' support:
 - developing neighbourhood
 - overcoming challenges
- Capability building using our development framework

Growing community of practice

The NAPC's growing community of practice provides a unique opportunity to support general practice, localities and STPs to achieve rapid local transformation to improve the care for their population.

- 220 sites
- 10 million patients
- 17% of population
- More than 1,000 GPs - 15% coverage

Examples from around the country

Beacon –
Developing urgent
care specialists

Thanet – Setting
up an Acute
Response Team
in A&E

Fleetwood – Setting
up social prescribing
and empowering
residents

Newport Pagnell – integrated
nursing and
stronger links with
social care

St Austell –
integrated nursing
team and strong
social prescribing

East Merton –
Care navigation
with direct
booking through
EMIS

The NAPC Faculty

The NAPC Faculty is a team of experts able to support maturing neighbourhoods.

The Faculty have a broad range of experience of working to deliver the neighbourhood model.

- **Clinical representation** (GPs, nurses, pharmacists, mental health workers, dentists, etc)
- **Community representation** – (practice managers, social workers, volunteers, carers, community services, leadership development)
- **PCH development expertise** – (Pop health management, care model design, engagement, evaluation, governance, workforce design, etc)
