

CQRS & Enhanced Service Update 2016/17

The financial increase to the items of service fee for many vac & imms means accurately claiming for enhanced services has never been more important. We know many practices struggle with CQRS - as you don't use it that often it's easy to forget all the processes you need to be aware of. It is essential all practices understand CQRS/GPES/Clinical System Searches - this is your payment system; failure to understand CQRS will seriously compromise practice income.

Which Read Codes should you use for each enhanced service?
What are the date of birth ranges for the various vac & imm claims?
What should be included in your searches for manual claims?
How can you check the accuracy of automated claims?

This half-day seminar will cover both manual and automated claims and will ensure you are fully aware of what you should be claiming for, how to claim and when. We will also cover the report section in CQRS so you can confidently check claims against payment, waiting payment, etc. This seminar will help you to feel much more confident with the whole process.

This half-day seminar will ensure you are confident with the whole process - from participation through to declaring accurate submissions, including useful everyday reports to help you understand what you have claimed and payments received/awaiting.

Included in this seminar:

- Overview - GPES/CQRS, collection timetable, adding new users
- Claiming Payments - manual/automated submissions,
- Reports - awaiting claims, achievement, payments
- Clinical System Reports - checking searches
- Clinical System Resources - pop-ups & patient alerts
- Errors with Claims
- Enhanced Services - includes common queries & errors, DOB ranges where appropriate, accurate use of read codes
- Avoiding Unplanned Admissions
- Vac & Imms 2016/17
- Contractual requirements - named GP, FFT, alcohol reduction scheme
