14-Jul	Guidance	PHE	Guidance on shielding and protecting people defined on medical grounds as extremely vulnerable	Y	What do we mean by extremely vulnerable? What you need to know How do these measures differ from the social distancing guidance for vulnerable people issued? Symptoms What is shielding? Handwashing and respiratory hyglene What should you do if you develop symptoms of coronavirus (COVID-19)? How can you get assistance with foods and medicines if you are shielding? What should you do if you have hospital and GP appointments during this period? What is the advice for visitors, including those who are providing care for you? What is the advice for informal carers who provide care for someone who is extremely vulnerable? How do you look after your mental wellbeing? What steps can you take to stay connected with family and friends during this time? What is the advice for people living in long-term care facilities, either for the elderly or persons with special needs? What is the advice for parents and schools with extremely vulnerable children?

14-Jul	Guidance	Other	Coronavirus (COVID-19): Office of the Public Guardian.response				The Office of the Public Guardian (OPG) will continue to deliver its services and support those who are planning for the future and at most risk in society. As we deal with the impact of coronavirus, we're working hard to maintain our services. We have robust plans in place that will help us to do this. We'll regularly review our position and ability to operate. This might mean that our approach will change to reflect government advice and guidelines. We'll update this page if that happens.					
14-Jul	Guidance	Other	COVID-19: Home Office extraordinary funding for domestic abuse support services				The Home Office has today (22 May 2020) launched a £2 million fund for non-local domestic abuse charities which are affected by the COVID-19 pandemic and for which other funding streams for domestic abuse charities are not specifically designed. These documents are the bid prospectus and the forms which need to be returned. The deadline for applications is 7pm on 8 June 2020. Full details are contained in these documents. The bid prospectus incorporates and replaces the high-level quidance published on this page on 19 May 2020.					
14-Jul	Guidance	Joint Health	COVID-19: guidance for commissioners and providers of services for people who use drugs or alcohol	Y	Y		"drug and alcohol services do not need to close at the current time and are important to keep operating as they protect vulnerable people who are at greater risk from coronavirus (COVID-19) and help reduce the burden on other healthcare services "services should keep face-to-face contacts between staff and service users to a minimum and minimise the use of biological drug testing and breathalysers, where safe to do so "follow up-to-date guidance for infection prevention and control, including handwashing, surface-cleaning, isolating people and sending staff home "arrangements for prescribing and dispensing of medicines used in drug and alcohol treatment will need to be changed to take account of service and pharmacy closures, staff unavailability, patients having to maintain social distance or self-isolate, including the most vulnerable being shielded and the need to reduce the spread of COVID-19 "measures to reduce drug and alcohol-related harm, such as needle and syringe programmes (NSP), take-home naloxone, thiamine, advice on gradual reduction of alcohol consumption and e-cigarettes should all be increased where possible "drug and alcohol treatment staff are included in the government's definition of key workers whose children can – if they cannot be kept safe at home – continue to attend school "usual expectations on services for local monitoring and reporting, contract and performance management and contract re-tendering can all be scaled back to enable services to focus on delivery	(,			Y

10-Jul	Information	Office of National Statistics	Deaths of homeless people involving COVID-19, England and Wales: deaths registered up to 26 June				Deaths of homeless people that involved the coronavirus (COVID-19) registered in England and Wales between 26 March and 26 June 2020.										
09-Jul	Guidance	PHE	COVID-19: potentially infectious people				The Secretary of State for Health and Social Care declared the outbreak of Covid- 19 as a 'serious and imminent threat to public health, which engages powers within the Cornavirus Act 2020 ('the Act') in response to the outbreak, these include powers for Public Health Officers. The Act revokes and replaces The Health Protection (Coronavirus) Regulations 2020 that came into force on 10 February 2020.										
09-Jul	Information	Other	The impact of COVID19 on Caring				During lockdown, people who reported caring for someone living with them who is sick, disabled or aged over 70 years were similar to those who are not in terms of what they are doing to help them cope while being at home. Carers were most likely to report that their family and friends (76%) are helping them to cope as well as their household members (58%), watching films or using streaming services (55%) and exercision (51%).										
09-Jul	Information	DHSC	NHS test and trace statistics (England): 25 June to 1. July 2020				Between 25 June and 01 July 2020: • 303,409 new people were tested for Coronavirus (COVID-19) under Pillars 1 and 2 in England. • 3,903 new people tested positive for Coronavirus (COVID- 19). • 4,347 people had their case transferred to the contact tracing system. 1 • Of these, 3,366 people (77.4%) were reached and asked to provide details of recent close contacts. 2,552 people (75.8%) provided details for one or more recent close contacts and 814 people (24.2%) said that they had no recent close contacts. • 842 people (19.4%) could not be reached. An additional 139 people (3.2%) could not be reached at all because no communications details were provided for them.										
09-Jul	Research & Analysis	PHE	COVID-19 prevalence survey: domiciliary care staff in England				The findings provide evidence that the prevalence of COVID-19 among domiciliary care workers who are currently working is in line with the general population (0.1% with a 95% confidence interval of 0.02%-0.40% compared with 0.05% (95% confidence interval 0.04%-0.19%) in the general population) and not a higher prevalence as observed in studies of front line healthcare workers and care home staff. Due to the small size of this study it is not possible to investigate regional difference in prevalence. It should be noted that that domiciliary care workers currently off work or self-isolating are underrepresented in this survey. This group may be expected to have higher prevalence but are also likely to have access to testing through Pillar 2.			Y	Υ			Y			Y
09-Jul	Information	Other	Coronavirus (COVID-19) Infection Survey pilot: England, 9 July 2020				This release provides initial data from the COVID-19 Infection Survey. This survey is being delivered in partnership with the University of Oxford, the University of Manchester and Public Health Enoland.										
09-Jul	Guidance	DHSC	Meeting people from outside your household			Y	"you can continue to meet in any outdoor space in a group of up to 6 people from different households "single adult households — in other words adults who live alone or with dependent children only — can continue to form an exclusive 'support bubble' with one other household "you can also meet in a group of 2 households (anyone in your support bubble counts as one household, in any location — public or private, indoors or loutdoors. This does not need to be the same household each time.

26-Jun	Press Release	MHRA	Chloroquine and Hydroxychloroquine not licensed for coronavirus (COVID-19) treatment				Recent media reports have suggested that chloroquine can protect patients from coronavirus or treat COVID-19, the illness caused by a coronavirus.
26-Jun	Guidance	Cabinet Office	Review of two metre social distancing guidance				If you are further away from someone there's less risk of catching the virus from droplets or aerosol transmission. However, distance isn't the only thing that matters. Duration - the longer you are close to an infectious person, the higher the risk. Fresh air - the risk is lower if you are outdoors, or in a well ventilated area, Direction - the risk is lower if you are not face-on with the infectious person The risk of transmission is small at 2m and where possible, you should maintain 2m distance. If it is not possible to keep 2m distance, reduce the risk to yourself and others at 1m by taking suitable precautions: Limit the number of people or households that you come into contact with, e.g. avoid peak travel Sit / stand side by side or behind other people, rather than facing them Meet people outdoors, rather than indoors Keep interactions brief Wear a face covering on public transport, in shops or crowded indoor environments Increase ventilation Avoid loud talking or singing with others
26-Jun	Press Release	Other	Coronavirus (COVID-19): scientific evidence supporting the UK government response				This is an incredibly fast-moving, developing situation and as part of our collective efforts to give the clearest and most reliable scientific advice, SAGE has and continues to draw upon a huge range of experts and a huge range of evidence. The UK is home to experts who are at the forefront of their chosen fields and we are making fulf use of their expertise to grow our understanding of COVID-19 as we work tirelessly to tackle this disease. The collective evidence we have published today has played a considerable role in shaping our recommendations on when, how and why the government have made the interventions it has so far. Indicators from the Opinions and Lifestyle Survey covering the period 18 June to

30-May	Information	Other	SPI-M-O: Consensus view on the potential relaxing of social distancing measures, 4 May 2020				Consensus statement from the Scientific Pandemic Influenza Group on Modelling, Operational sub-group (SPI-M-O) for the Scientific Advisory Group for Emergencies (SAGE) This paper contains estimates of R for some regions of the UK. Please note that these are estimates from individual modelling groups, and not agreed consensus estimates from SAGE. The estimates from this paper are for specified scenarios, and are not forecasts. R is an average value that can vary in different parts of the country, communities, and subsections of the population. It cannot be measured directly so there is always some uncertainty around its exact value. Regional estimates are subject to greater uncertainty given the lower number of cases and increased variation. It should be viewed in context: the paper was the best assessment of the evidence at the time of writing. The picture is developing rapidly and, as new evidence or data emerges, SAGE updates its advice accordingly. Therefore, some of the information in this paper may have been superseded and the author's opinion or conclusion may since have developed.

This has been reviewed by SAGE.									
15-May	Press Release	DHSC	Health and Social Care Secretary's statement on coronavirus (COVID-19): 15 May 2020				Health and Social Care Secretary Matt Hancock gave the 15 May 2020 daily press briefing on the government's response to the COVID-19 pandemic									
15-May	Press Release	DHSC	Care home support package backed by £600 million to help reduce coronavirus infections				* £600 million Infection Control Fund to reduce transmission of coronavirus in care homes * This forms part of wider support for care home residents and staff, including by limiting staff movement, protecting wages and giving access to NHS personal protective equipment (PPE) training * Each care home in England to be given a named clinical lead to provide direct care for residents * A wellbeing package will be also launched on CARE Workforce app to support the workforce with Hospice IJK and Samaritans									
15-May	Information	Other	Overview of scientific information on coronavirus (COVID-19)				the workforce with Hospice UK and Samaritans The response draws on information from the Scientific Advisory Group for Emergencies (SAGE) and its sub-group the Children's Task and Finish Working Group, as well as the broader advice from engagement with Public Health England.									
15-May	Press Release	DHSC	70 million face masks for NHS and care workers through new industry deal				* Government agrees deal with technology company Honeywell to manufacture 70 million face masks for frontline workers * New deal part of plan to unleash potential of UK industry to scale up domestic personal protective equipment (PPE) manufacturing * The production line has capacity to produce up to 4.5 million masks each month and will create 450 new jobs at the production site									
15-May	Press Release	Cabinet Office	Slides and datasets to accompany coronavirus press con	ference: 15 N	May 2020		Press conference slides and datasets used by The Rt Hon Matt Hancock MP and the deputy chief medical officer for England, Dr Jenny Harries OBE.									
15-May	Information	Other	Supporting vulnerable children and young people during the coronavirus outbreak	Y	Υ	Y	This guidance is for service providers, including: registered childcare providers (including nurseries and childminders) local-authority-maintained schools and academies (both mainstream and special) - throughout, we define school as either maintained by the local authority or a single (or part of a multi) academy trust all alternative provision including pupil referral units non-maintained special schools independent special schools of special form of the ducation (FE) colleges, special post-16 institutions and other post-16 providers					Y		Y		
15-May	Information	Other	Overview of scientific information on coronavirus (COVID	I <u>-19)</u>			local authorities and moviders of children's social care The response draws on information from the Scientific Advisory Group for Emergencies (SAGE) and its sub-group the Children's Task and Finish Working Group, as well as the broader advice from engagement with Public Health England.									
14-May	Press Release	Cabinet Office	Transport Secretary's statement on coronavirus (COVID-19): 14 May 2020				Describing how the time during lockdown has been used to fix and upgrade road and rail infrastructure, including plans to help the economy bounce back.									
14-May	Press	Cabinet	Slides and datasets to accompany coronavirus press				Press conference slides and datasets used by The Rt Hon Grant Shapps MP and									
14-May	Press Release	Office Cabinet Office	Critical workers who can access schools or educational settings			Y	Professor Jonathan Van-Tam. If it is at all possible for children to be at home, then they must be. If a child needs specialist support, is vulnerable or has a parent who is a critical worker, then educational provision will be available for them. Parents should not rely for childcare upon those who are advised to be in the stringent social distancing category such as grandparents, friends, or family members with underlying conditions. Parents must also do everything they can to ensure children are not mixing socially in a way which can continue to spread the virus. They must observe the same social distancing principles as adults. Residential special schools, boarding schools and special settings continue to care for children wherever possible.									
14-May	Guidance	Other	Coronavirus (COVID-19): local death management	Υ	Y	Y	Schedule 28 to the Coronavirus Act 2020 introduced new powers for local authorities and government to support the resilience of local death management systems, and step in if they become overwhelmed. This guidance sets out how and when the powers should be used by local authorities.	Y	Υ		Υ	Υ	Y	Y		Y
14-May	Guidance	MHRA	Specification for ventilators to be used in UK hospitals during the coronavirus (COVID-19) outbreak		Y		This guidance sets out the clinical requirements based on the consensus of what is 'minimally acceptable' performance in the opinion of the anaesthesia and intensive care medicine professionals and medical device regulators.	Υ		Y	Υ	Υ	Y

17-Mar	Guidance	NHS E/I	Management of emergency department		Y		Obligatory inpatient emergency admissions: Continue to require admission and may require emergency management. It will be necessary for each admission area for medical patients (AMU, ED) to create parallel systems to separate patients with respiratory symptoms from those with other clinical presentations. The management of the non-respiratory cohort should: 'aim to manage without admission 'use capacity from other specialities for whom elective work will be stepped down; especially T&O, O&G, ENT and ophthalmology as these can be rapidly streamed at the front door 'make appropriate use of staff most at risk to their own health from coronavirus. 'Eor the respiratory cohort, the priorities must be:	www.bsti.org.uk/ nedia/resources/fi les/RSTI COVID 9 Radiology Gu dance version 2 16.03.20.pdf	Υ		Y	Υ	Y	Υ		Y	Y
16-Mar	Guidance	NHS E/I	Management of General Surgical Patients		Y		-Obligatory inpatients: Continue to require admission and surgical management, eg postoperative patients. We must expedite treatment to avoid preoperative delay and expedite rehabitation to minimise length of stay. -Non-operative: Clinical decisions during a serious incident must take into account the available facility for the current patient and also the impact this may have on the whole community. -Inpatient management: Patients with conditions that can reasonably be managed either operatively or non-operatively, eg biliary colic. We must consider nonoperative care if that avoids admission. -Day cases: Surgery can be safely undertaken for a large number of conditions. Provision for day case surgery must be made. -Clinics: Outpatient attendances should be kept to a safe minimum. -Surgical workforce: -'Alternative surgical roles, eg running non-medical EDs, trauma teams, etc. -'Non-surgical generic roles, eg running level 2 units/medical wards, command and control, etc		Υ	Y	Υ	Y		Y	Y		Υ
16-Mar	Guidance	NHS E/I	Management of trauma and orthopaedic patients		Υ		-EDs will change their system and will use triage at the front door and stream patients directly to the fracture clinic before examination or diagnostics. Fracture clinics are likely to be asked to take all patients presenting with trauma (including wounds and minor injuries) straight from triage. It is possible that this temporary service will need to be expanded to provide a 12-hour service, 7 days per week. Vising Virtual Fracture Clinic (VFC) will not reduce ED workload. Hospitals using this system may need to switch during the crisis to the system outlined. *Consider postponing long-term follow-up patients until the crisis has passed. *Plaster rooms should be accessible for the longest possible time. This will reduce the need for repeat visits to amend casts or splints. *A temporary minor operating theater and dressings clinic may need to be set up in fracture clinic to allow for suturing of wounds etc. *CT scanning may be limited as it is the investigation of choice for coronavirus pneumonitis.
