

Do you have concerns regarding women's limited choice and access to LARCs?

Do you have concerns or questions you would like to ask around fitting implants post COVID-19?

Would you like a refresher/update to learn more about becoming a fitter?

Would you like to learn more about the Nexplanon implant insertion site?

If you do, why not attend a remote Nexplanon Fitters Forum meeting. These meetings are non-promotional meetings, held for the education and support of Nexplanon fitters inserting and removing implants, or HCPs interested in becoming a fitter.

The meetings are tailored to meet your personal objectives whether you are a new or an experienced fitter, and you can submit specific questions you would like to be discussed in advance of the meeting.

The meetings also enable Nexplanon fitters the opportunity of sharing best practice, brainstorming and networking with fellow Nexplanon fitters.

We have a remote Fitter Forums WebEx training meeting booked for Somerset on:

Wednesday 11th of November @ 12.00-1.00pm;

To reserve a place for the above sessions, **please email lesley.whittington@merck.com**, who will reserve a place for you and forward a confirmation email

All attendees will receive a Certificate of Attendance which can be included as evidence within their CPD portfolio of one hours LARC training.
