

### Can we do more to help?

Devon Doctors works closely with palliative care health professionals and hospices around Devon. With their help we review and make changes to improve our service for palliative care patients, their families and carers.

We are grateful for any feedback you may have about our service. You can:

- Ask your palliative care nurse to pass on any comments to us.
- Give your feedback via our website:

[Local rate - mobile costs may vary according to service provider]

Devon Doctors recognises that patients with palliative care needs and their carers can be reluctant to seek help during the night or at weekends. This leaflet aims to reassure you that we are available throughout the entire out-of-hours period. Please call us if you think we may be able to help.

### Who to call

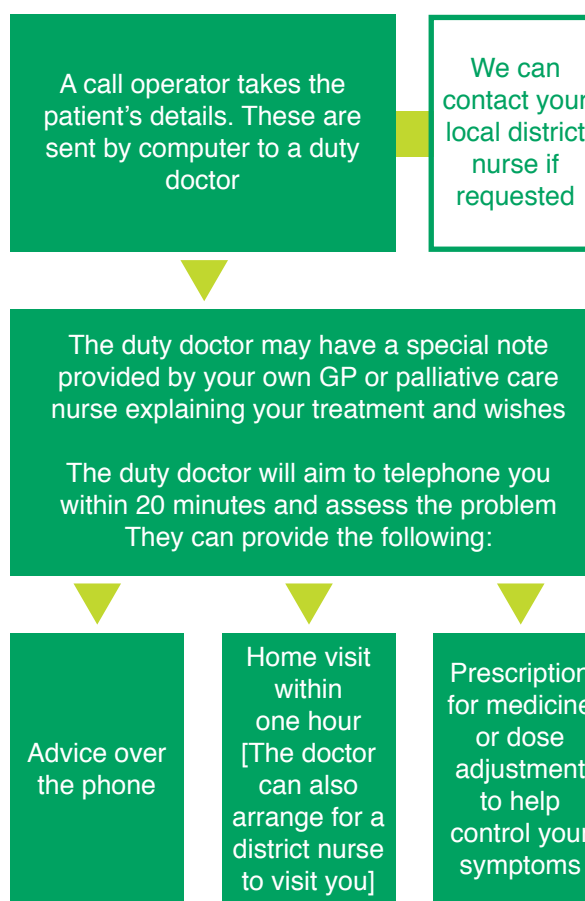

Devon Doctors provides the integrated urgent care service in Devon, providing urgent GP and nursing care when your surgery is closed. You can contact us out of hours, ie Monday to Friday 17:00-08.00 and from 17:00 on Friday to 08:00 on Monday, on 0345 504 9113.

### Information we need

We require some brief personal information when you call. Devon Doctors utilises an electronic information system that records individual treatment plans, decisions and wishes. This information is shared with key healthcare professionals including the ambulance service, hospitals and community healthcare teams. Please be prepared to give our call operator the patient's:

- Name ■ Date of birth ■ Address and telephone
- GP and surgery name ■ Current symptoms

### What happens when you call us

Details of the above are sent to your own GP the next working day.

### Giving you priority

We will give your call priority. The duty doctor will aim to telephone you within an hour.

If a home visit is needed, the visiting doctor will endeavour to be with you within an hour of your telephone conversation.

### When should I call?

Please do not hesitate to call us if there is:

- Anything whatsoever which is giving you any cause for concern or anxiety.
- Increased pain, nausea, vomiting or other symptoms that do not settle with the usual medication.

You should also call us if you have been advised to contact a doctor by a hospice nurse.

**Contact us as often as you need to.**

**Our doctors work from hospital-based treatment centres and are always ready to help you.**
