

Trauma informed care

RECOGNISING THE SIGNS OF TRAUMA

We are delighted to welcome Jemma Peters from Somerset NHS Foundation Trust to talk about trauma informed care.

This two-hour session will help you to recognise trauma when providing health care and what to do about it.

This is a general overview of an extremely complex topic, and will focus on people being resettled in the UK, asylum seekers and refugees.

Date: 9 June 2022

Time: 12:30-14:30

Where: Microsoft Teams
