A quick guide to the GPAS states

Black

Practice will fail within one month. Urgent system intervention required

Red

Sustainable in the short term. Needs system support

Amber

Sustainable in the medium term 6 months max). Probably needs system support

Green

Fully sustainable

A selection of comments from our Practices

No follow up required at this time but since the issues at a neighbouring practice, hit the press the stream of patient enquiries about moving practices have become a flood. We agreed a hold on inter surgery transfers but it has put additional pressure on our phone phone lines and staff dealing with worried patients, telling them that they cannot move practices.

General shortage of appointments. Some staff sickness

No support needed - but lots of bugs around affecting staffing levels
