

PRESCRIBING MEMANTINE IN GENERAL PRACTICE IN ENGLAND

We are a research team at the University of Exeter investigating care and prescribing for people with moderate to severe Alzheimer's Disease (AD) in general practice.

If you are a GP working in a general practice in England, please spare 10 minutes to complete a **short online survey**.

If you would like to **participate in our survey**, please click this link:

<http://tinyurl.com/4m83t95f>

We are also keen to conduct research interviews (online/phone) – you will be given an opportunity to register your interest in being interviewed at the end of the survey.

If you have any questions about this research, please contact:

Dr Mary Carter, Research Fellow, mary.d.carter@exeter.ac.uk.

THANK YOU
