URGENT CARE OR WALK IN?

THURSDAY, JUNE 28, 9AM-5PM, AT TAUNTON RACECOURSE

Welcome from Devon Doctors CEO Dr Justin Geddes

If you work in any situation where you see and treat ambulatory urgent care patients then ask yourself, are you up to date?

Are you confident with those difficult cases where the text books don't have the answers?

If you're confronted with a suicidal patient who has dynamic and static risk factors, should you send them home?

Should you give oxygen to a man with ACS?

What about a child with bronchiolitis and saturation of 92%?

Just £175 for GPs and £130 for Nurses / GP Trainees*

*Usually costs £225 and £180 respectively

**£50
off**
usual
price
