

Smear follow up in pregnancy

Name
Hospital number
Date of birth
Address

National guidance recommends that a cervical screening 'smear' test be performed in pregnancy in certain situations. NHS Cervical Screening Programme Document 20

The above named woman has:

Missed / defaulted previous screening invitations

Previously had treatment for CIN2 or CIN3 (cervical intraepithelial neoplasia) that was incompletely removed.

Previously had treatment for cervical cancer and is in years 5-10 post treatment and requires annual smear follow up

Please perform a cervical screening 'smear' test in the GP practice during this woman's pregnancy.

Yours sincerely

.....Midwife
